NO PAPER WEDNEDAY.

In accordance with time-honored custom and newspaper tradition in Wilmington, The Morning Star will suspend publication on Wednesday, July 5th, so that all its employes may have opportunity to observe the "Fourth of July" holiday. Subscribers, therefore, may expect no paper to-morrow morning.

A married woman asks her husband's advice and then feels sorry that she cannot rely on his judgment as against hers.

"Men, fight for your colors!" said a Fourth of July orator in 1845. If the orator had lived till to-day he would see men doing their principal fighting for the long green.

One lady was overheard saying to another: "Oh, I'm not going to the mountains this Summer; I haven't got a thing to wear." If that is the case she can go to the seashore and be in the fashion.

Chief Engineer Wallace should understand that he is not in the same class with a cabinet officer who is at liberty to resign when some corporation offers him a larger salary than the government pays.

The press is still praising President Roosevelt "for making peace in the ast possible." Huh! We thought all along that Admiral Togo was the principal and Col. Roosevelt was the accessory —after the fact.

It is announced that the United States treasury has just issued a new series of $20 bills which the officials expect will be very popular. If the new bills are so popular that we won't stand a chance of getting any of them, we are willing to take the old second hand bills if the treasury is going to sell them at a discount on account of their being shop worn.

We stoutly insisted on the integrity of the Chinese empire, sent Big Ike "identical notes" to the powers, and monkeyed around with some sort of officious insistence on the "open door" for the trade of all nations, and now China ups and boycotts us out of business. Of course, the "open door" is there for us but when we pass in there's nothing doing. John Chinaman won't even look at our samples.

LOCAL DOTS.

—Other local on fourth page.

—The Wilmington Gun Club will have a special "Fourth of July" shoot this afternoon at 4 o'clock.

—The quartely meeting of the Board of Directors of the Associated Charities will be held at the office of the Association Wednesday morning, July 5th, at 11 o'clock. A full attendance is desired.

MUNICIPAL AFFAIRS

Lengthy Session of Board of Aldermen Held Last Night at the City Hall

REGULAR MONTHLY REPORTS

Much Routine Business and Long Discussions of Various Topics—To Increase Police Force—Other Notes.

The Board of Aldermen was in session about four hours last night. A little of everything was tackled from the growing of "Jimpson" weed in the street to the great social evil. All members of the Board were present, but there were few spectators, the curious evidently having chosen to retire early in anticipation of a "Glorious Fourth." The actual business transacted was, in the main, not important. Much of the time was given up to discussion and routine work.

Before calling for the regular committee reports, General Manager Skelding, of the Consolidated Company, was present and desired to be heard on a proposition which he understood would be introduced to reduce the speed limit of the street cars, growing out of a complaint by Mr. Bear that a carriage in which his mother was driving was run into by a car and smashed up on North Front street some time ago. Mayor Waddell said that Mr. Bear had telephoned that he would be unable to be present at the meeting. The Mayor stated that he did not think Mr. Bear wanted a reduction of the speed limit, but that he wanted the cars confined to the speed now prescribed. The Mayor said that the would see that the speed ordinance was not violated and Mr. Skelding said the company was not averse to an arrest for any violation; he regarded the ordinance very reasonable.

Alderman Johnson called attention to the cars at the junction running up side by side and blocking Princess street instead of stopping at the first corner and leaving the street open as heretofore. It might sometimes be a hindrance to fire apparatus responding to an alarm and he regarded it dangerous to the travelling public. He suggested that in stopping at the junction, the cars run over to the far crossing instead of stopping in the middle of the street intersection. Mr. Skelding said that an arrangement to the same effect had recently been abandoned to facilitate travel and reduce the danger to what the company though was a minimum. However, he would have the cars stop as the Board would direct. No action was taken.

Mr. W. E. Perdew, Mr. T. H. Thompson and others of a delegation of Third Ward citizens were introduced by Alderman W. H. Yopp and in explanation of the purpose of their visit a petition was read from all the property owners on Seventh, between Market and Red Cross streets, asking that that thoroughfare be macadamized. The wonderful improvement and increase in the taxable valuation of property on that street was cited. Mr. Yopp said that he knew it had been the purpose of the former administration to improve that street and while the understanding was not definite, he moved that the next work after the Fifth ward improvement be the macadamizing of Seventh street. The precedence given Fifth ward brought a prompt second from Alderman King. Another was also by Alderman Johnson.

Chairman O'Brien, of the Streets and Wharves Committee, said no member of the Board was more anxious to improve the streets than he, but where is the money coming from? He would like to put down the street, but there was no appropriation and he saw no use of ordering the committee to fix a street when there is nothing to fix it with. Already $18,000 of the pittance allowed for street improvement has gone for the North Fourth street paving; $4,000 would be needed for the Fifth ward work and there were other urgent calls, notably at foot of Grace street. The matter was finally referred to the Streets and Wharves Committee.

Upon report of Chairman W. H. Yopp, of the Finance Committee, a license tax of $2.50 per month was imposed on manufacturers of pine or other fibre, and on distillers of pine products other than turpentine distillers; also, a tax of $3 per month on typewriter agents. Action of the committee in compromise of an old back tax matter of Mariah Dry was concurred in. Mr. Julius Hahn was granted license as a brewers' agent to pay $30 per month in addition to the regular dealer's tax paid by him for the Southern Distilling Co. The matter of whether Messrs. Sol. Bear & Co., wine manufacturers, are liable for tax as upon wholesale dealers in liquor was brought up by Alderman W. H. Yopp. Alderman Price favored striking out the word "wine" in the clause in the tax ordinance with reference to dealers in spiritous, vinous or malt liquors, relieving Messrs Bear altogether as he did not regard the firm on a footing with regular liquor dealers but, on the other hand, he thought the business conducted by them should be encouraged as a Wilmington enterprise. Mr. Yopp thought the exemption claimed by Mr. Bear in the Revenue and Machinery Act only applied to farmers and growers of grapes in the country and where the wine was not sold off the premises; there was nothing to prevent the city from levying a tax on the business, even if the State did not tax such dealers. Finally on motion of Alderman O'Brien, the matter was referred back to the Finance Committee to consult with the City Attorney as to the proper construction of the law.

A. S. King was permited to remove his beef market from Seventh and Castle to Front and Castle street.

Chairman O'Brien, of the Streets and Wharves Committee, made an exhaustive and carefully prepared report of the work in his department. Red Cross, between Front and Nutt, has been laid with Belgian block, the old cobble stones which formerly made the street an eyesore having been removed to foot of Grace street for paving that part of it leading to the Clyde Steamship wharf, over which there is very heavy travel. The Red Cross pavement has been laid with ample drainage and fitted with six man holes and sand traps. The whole has been done at a cost of $516.50 to the city and $329.99 to the railroad, which kindly furnished the blocks, making the total cost $1,346.94. He regarded the sharp descent a very fine piece of work, and said that he had found Superintendent R. T. Pickett a capable and very efficient officer, fully able to perform all his duties with credit to himself and to the city. Mr. O'Brien offered a warm resolution of thanks to the A. C. L. for its generous co-operation in the work, and a copy of the resolution, after unanimous adoption, was ordered sent to the officials of the company.

The Fourth street paving would soon be commenced by contract. The committee had already begun the improvement of the street in front of St. John's Episcopal church, Chairman O'Brien said. He also recommended for the committee that the proposition of the Clyde S. S. Co., to expend $940 on the improvement of Grace street Dock, and to hold the same as a tenant at will for $75 per year, be accepted, provided room is left for the fire boat contemplated by the Fire Committee and that the dock be kept always open which was agreed to by the proposed lessee.

In this connection Alderman Johnson suggested that the cobble stones from Red Cross street were very much unsuited to the pavement of a street over which there is so much traffic. The cobble stones could be used very well for gutters and he asked that the committee pave the foot of Grace street with Belgian block, if estimates to be secured made it practicable.

Contract for painting Fifth Street bridge was let to the Jacobi Hardware Co., for $147.50. Other bidders were Fowler & Klahnder, $175; J. W. S. Harvey, $265; J. E. Hatch, $188.

Alderman Johnson passed some criticism upon the management of the police force, which was fully and satisfactorily explained by Chief Williams, of the Department; Chairman J. A. Karr, of the Committee, and Mayor Waddell, who accepted authority for putting on a plainclothes man for special duty, asking the apology of no one. At the suggestion of the Mayor, a motion by Chairman Karr to increase the police force by five men as an "absolute necessity for the safety and protection of the city," as worded by the Mayor, was unanimously passed with the earnest request that the Board of Audit and Finance concur in the same.

Property owners on Water street, south of Orange to Ann street, presented a signed paper acknowledging that thoroughfare as a public one. They had asked that the city improve the street, but had been plainly told by the Mayor that not a lick would be struck on the work until they would relinquish the claim that the property was private. The paper read last night was a virtual surrender and the improvement of the street was referred to the committee for report at the next meeting.

Chairman Rathjen, of the Fire Committee, reported the award of the contract for the new hook and ladder truck, as previously reported, and the award was approved. Messrs. J. T. Zellers and M. T. Sellars were elected firemen vice the Messrs. Burriss resigned.

Coal contract was awarded the Springer Coal Co. at $7 for Anthracite, $3.80 for Pocahontas, and $5.40 for Jellico, delivered in any quantity. The only other bidder was W. E. Worth & Co.

Upon recommendation of Chairman Brown, the contract for city lighting was awarded to the C. R., L. & P. Co., at a slight reduction in the figures from last year. Upon the chairman's recommendation, $78.50 was appropriated for a new arc lamp at 15th and Market and $32.50 for a new Welshbach at Eighth and Harnett streets.

Upon recommendation of Chairman King, Messrs. Sneed, Loughlin and Collins were exempted from hucksters license, being tenants of the city market.

The Sanitary Committe was instructed to look into the matter of inadequate trash cart facilities and to appear before the Audit and Finance Board and insist on a restoration of the slop carts, which had been cut off necessitating the taking off of one or more trash carts to supply the deficiency. Chairman W. E. Yopp, of the same committee, was authorized to buy a new mule for the street cleaning department to take the place of one disabled, which will be sold. In connection with the proposed crematory, Mr. Yopp reported progress. The Mayor signified his purpose to send the chairman or some other member of the committee to inspect the fine crematory system now in use in Charlotte.

Alderman Brown called the attention of the Fire Commission to a dangerous building near Sixth and Queen streets, explaining its dilapidated con-

THE COUNTY FATHERS

Regular Monthly Meeting of the Board of Commissioners Held Yesterday Afternoon

TO BUILD NEW JAIL CELLS

Also Place of Confinement for Violent Insane—Road Bonds for Sale—Usual Reports for the Month of June.

The Board of County Commissioners was in regular monthly session yesterday afternoon, but the business transacted was of no special importance, being largely routine. All members were present, viz.: Chairman D. McEachern, Messrs. H. L. Vollers, W. F. Alexander, M. W. Divine and Capt. Wm. F. Robertson. The Board informally discussed a proposition from Messrs. Hugh MacRae & Co., to take one-fourth of the output of the rock quarry at Castle Haynes to make improvements to certain country property which the firm has recently bought, but no action was taken. It was also arranged for Mr. F. A. Montgomery to move on the County Home farm and reside there instead of living in the city and directing the affairs of the home and the workhouse from here, the proposition to remove having come from Mr. Montgomery himself. The Board decided to have two cells added to the county jail by extending the present tier back to the southern wall, making eight instead of six cells as now. It was also decided to install one or two padded cells for insane persons in the basement of the building, if the proper ventillation can be had there; if not, in another part of the building. Mr. J. W. Landrum, of Atlanta, representing the Pauly Jail Building Co., of St. Louis, was present and make a talk to the Board concerning the improvement, which he though, would cost in the neighborhood of $2,500. The matter was referred to the Public Building Committee for action as early as practicable.

A bid was received from Messrs. Matthew & O'Brien, civil engineers, in which they offered to make a complete map of the county for $1,800 and to furnish blue prints of the same to the county for $2.50 each and to the general public for $5 each. No action was taken.

Request of the Red Men that they be exempt from county taxes on a proposed carnival here during September or October, the proceeds to be used for building a home for the order in this city, was granted. The Board stated that it had nothing to do with the location of the carnival.

Petition from the United Charities (colored), that its secretary be allowed a salary of $15 per month out of the $125 per month given by the county for the support of the charity was not granted.

The county attorneys reported the collection of $153.93 back taxes during the month, which had been paid, less ten per cent. commissions, into the treasury.

The Auditing Committee reported the payment of eight Court House bonds of $500 each, and the burning of the same. The Board already has over 25 inquiries concerning the new issue of $50,000 road bonds, and the indications are that they will command a handsome premium. The chairman was authorized yesterday afternoon to advertise for bids for the sale of the bonds.

The Superintendent of Health reported eight cases of smallpox and 14 cases of typhoid fever occurring in the county during June. The county institutions are in fine sanitary condition; well kept and the inmates in good health and comfortably provided for. one case of mumps in the jail, six of fever in the convict camp and two of fever at the County Home constituted the amount of acute sickness in them. Ninety-one patients were treated in the office and 20 were visited at their homes. The Court House cistern water has an unpleasant odor which the superintendent thinks is due to natural causes. The cause cannot be accurately ascertained without an analysis. The Superintendent inspected the plumbing, sewerage and water supply of the Hotel Tarrymoore, and found them complete and up-to-date. As to the visits to the jail by the superintendent as suggested by the grand jury, Dr. McMillan verbally reported that visits were made there as often as necessary, and the records for the past five years would show that the number of cases of disease contracted during that time is the minimum for the State indicating not the least inattention.

The following jurors were drawn for the two weeks' term of court, beginning July 24th, from the box as recently revised under the new law, allowing absolutely no exemptions, not even members of the bar, viz.:

First Week—Frank H. Hottal, Jas. S. Hooper, E. J. Littleton, H. D. Stanland, W. S. McPhatter, James T. English, Wm. C. Crow, W. F. Corbett, W. A. Whitney, Julius Sternberger, G. A Croft, Samuel T. Special Trial Offer

THE MORNING STAR

At Reduced Rates To New Subscribers

For the next sixty days will mail THE MORNING STAR to subscribers outside the city at the following reduced rates:

FOR ONE YEAR $4.00
FOR SIX MONTHS $2.00

Positively, no subscription will be taken at the reduced rates for a period less than six months. For one month the price will be, as heretofore, $1.25 for three months; or, fifty cents for one month.

This offer, as will be noted, is for a limited period only, and is made for the purpose of giving those who appreciate the value of a daily newspaper an opportunity to read the STAR for six months, or more, at a cost of about one and a quarter cents per copy, and then determine whether or not they will continue their subscription at the regular price.

No name will be entered on our books under this offer unless the order is accompanied with the cash.

While this proposition is made primarily to secure new subscribers, old subscribers outside the city may avail themselves of its advantages at the reduced rate provided they pay all arrearages and for not less than six months in advance.

On account of the heavy expense attached to our city circulation department this offer does not apply to city subscribers.

Sample copies mailed free to any address.

Note the conditions of this offer carefully to avoid mistakes.

HEADING OFF RUSSIA.

Russia has for many years shown a disposition to crowd Great Britain on her Indian frontier and to an observer it would appear that Great Britain has reason to suspect Russian aggression in that quarter. For many years we remember that war between Russia and Great Britain has been considered quite probable, and both powers have no doubt believed that the conflict is inevitable.

Great Britain has every reason to feel a sense of relief at Russia's defeat in her war with Japan for it retards Russian agression and gives Great Britain more time to prepare for the conflict. General Lord Kitchener is one of the Englishmen who believe that war is sure to come.

Although one would imagine that Russia has been sufficiently mauled in the present war with Japan to be content to keep the peace for a generation, Great Britain apparently does not feel over-confident of that fact, since she is steadily perfecting her preparations to resist any attempt on the part of Russia to invade India. Only recently a treaty has been signed with Afghanistan, under the terms of which the British Government agrees to come to the assistance of the ruler of Afghanistan should he be attacked, and the government of Afghanistan agrees to remodel its defenses in accordance with British views.

Over and above this arrangement with Afghanistan, the British government has given Lord Kitchener, the present Commander-in-Chief of the Indian Army, practically supreme control in military matters, taking the control of the army completely out of the hands of the Viceregal Government. It appears that Lord Curzon and Lord Kitchener's views differed as to the best method of preparing for the defense of India. The latter believes that a war with Russia is inevitable, and besides is to be permitted to make the proper preparations for the contingency. Evidently the Home Government agreed with Kitchener, since it has granted him the powers he requested over the protest of the Vicroy, Lord Curzon. As a result of this tilt between the Viceroy and the Commander-inChief, it is reported that the former has tendered his resignation, if the government persists in refusing to modify the powers granted to Kitchener.

The New Orleans Picayune makes this comment on the situation:

"It would be cause for regret were so able an administrator as Lord Curzon to relinquish the post of Viceroy of India at the present time. That his administration has been successful and extremely beneficial to India is generally recognized, and it would be difficult to replace him at the present juncture. On the other hand, Lord Kitchener has worked wonders with the Indian Army, and when it comes to a matter of military preparation and defense there can be no doubt that there could be no fitter man in control than the one who now leads the Indian Army. The defense of the northern frontier of India is a purely military question, and it seems but proper that it should be handled solely by a soldier, and not by a statesman, however able. While it would be a misfortune to lose Lord Curzon, it would be a worse misfortune to tie the hands of Lord Kitchener, in the present condition of things."

Russia and Great Britain are old time enemies, and King Edward's empire has always had a dread of the Bear that walks like a man. It may turn out that Great Britain will yet thank Lord Kitchener for his policy to prepare for war and keep prepared.

TH SOUTHERN POWER COMPANY.

The whole State of North Carolina is interested in the tremendous development of the water-power on the Catawba and Yadkin rivers and those various enterprises on foot and in prospect, mean a magnificent development of the region which can be reached by the electric power generated in sufficient quantity to make it the manufacturing centre of the South. The largest corporation ever launched in this part of the country is the outcome of the development of the water-power near Charlotte and known as the Catawba Power Company. However, will let the Observer, under yesterday's date, tell about it. Our esteemed contemporary says:

"The Southern Power Company was organized in New York last Saturday with a capital stock of $7,500,000, the object of the concern being to develop the powers of the Catawba and Wateree rivers in North Carolina and upper South Carolina. The officers of the new corporation, which was organized under a New Jersey charter, were elected as follows: President, Dr. W. Gill Wylie, of New York; first vice president, Mr. B. N. Duke, of Durham; second vice president, and chief engineer, W. S. Lee, Jr., of Charlotte; secretary and treasurer, R. B. Arrington, of New York; assistant secretary and treasurer, W. H. Martin, Jr., of Charlotte.

"The new concern will have its offices in Charlotte. It absorbs the Catawba Power Company, and will retain the quarters, in the Trust building, and the office and other forces of the old company. The past success and bright prospects of the Catawba Power Company, completed as it was less than two years ago, are probably responsible for the birth of the new and larger company.

"It has been known by a few Charlotte business men that the organization of such a concern as the Southern Power Company was contemplated, but no one realized the immensity of the project. The company has control of the Catawba Power Company (developed), the Mountain Island power, the Wateree Falls, the Small and Great Falls of the Catawba and other valuable property that is accessible and can be developed, and will be developed as there is a demand for the power.

"The Great Falls of the Catawba will be developed at once. There will be three developments there and the completed plant will cost not less than $1,500,000. The estimated amount of power will be 20,000 horse-power to each development, or a total of 60,000 the Yadkin, already in process of horse-power. This plant will be about the size of the plant of the Whitney Reduction Company, on the Yadkin, already in process of construction. The surveying and making plans and specifications for this great piece of work have been in progress for some time, and the construction work will be started as soon as possible and will be prosecuted vigorously until the completion. The company hopes to have the plant in operation within two years.

"The Great Falls are located about midway between Chester and Winnsboro, S. C. They are about 12 miles from the Southern Railway, and about 40 miles from Charlotte. The electric power generated here will be distributed in this city, Chester, Winnsboro, and other towns in South Carolina and this State.

"Dr. Wylie and the other officers and promoters of this new concern first became interested in the undeveloped powers on the Catawba more than five years ago. Dr. Wylie, a man of means and much business sagacity, made several trips South with Mr. W. S. Lee, Jr., whom he interested in the powers, and surveys and estimates were made. More capital was interested and the Catawba Power Company was organized, and this, then undeveloped, magnificent property was bought and work begun on the plant, from which the force now comes to drive the wheels of a large number of cotton mills, lumber mills, and other industries, lights the streets of Charlotte, and furnishes power for every conceivable purpose in this city, Rock Hill, S. C., and other towns in South Carolina. The developing of this one power showed the capitalists what there is in the other powers on the Catawba and the Wateree and led them to obtain control of them.

"The new company means business, and business on a large scale. There is no lack of capital. With a capital stock of $7,500,000 the concern can work wonders in the piedmont section of North and South Carolina, and if more capital is needed it will be forthcoming."

CURRENT COMMENT.

Kaiser Wilhelm is talking as though he expected President Roosevelt's peace movement to show up at any time with a punctured tire.—Washington Post.

—It will only be a few months until some of the young men now graduating from colleges would like to trade their diplomas for meal tickets.—Washington Post.

—Russia wants to fight another battle before the peace jubilee begins at Washington, all of which leads to the belief that the czar doesn't want to pay car fare for his soldiers between Manchuria and St. Petersburg.—Philadelphia Telegraph.

—Swapping a war between Russia and Japan for one between France and Germany would be a might poor trade for the world. It would be like moving a pair of battle tomcats from your neighbor's back fence into your dining room.—New York Mail.

—Judge Purnell yesterday held in favor of the holders of Onslow county bonds, which the authorities are endeavoring to repudiate, and the case will doubtless be taken to the United States Circuit Court of Apepals, then the United State Supreme Court, and finally—the county will have to pay up, as it ought to do without any suit.—Charlotte Observer.

—The pension system is South Carolina has been found to be as prolific in proportion as that of the United States in promoting fraud. Six alleged widows are to be prosecuted in Colleton county for drawing money they were not entitled to, as all have living husbands. Robbing the State seems to be a peculiarly enticing avocation.—Spartanburg Journal.

—The people of the Philippine Islands during the past five fiscal years have purchased over $33,000,000 worth of manufactured cotton goods. Our share of this trade was $1,003,842—less than 3 per cent of the whole. How this comes about we leave to the explanation of the imperfialists and Protectionists who carry the flag where they don't carry the Constitution and free trade.—Philadelphia Record.

—The revolt of a part of the Russian Black Sea fleet has a somewhat similar parallel in modern times. Soon after the establishment of the republic in Brazil, Admiral Mello, commanding the navy, revolted and declared in favor of the deposed monarchy. His revolt amounted to nothing finally, for it had no such strong patriotism or self-interest back of it as the Russian mutiny has. The latter may not prove effective in its immediate results, but considering the state of mind of the people of the country its influence cannot be meaured in its force and power.—Columbia Record.

—In retiring, Engineer Wallace plainly states that the only way to successfully construct the canal is to employ a competent engineer, and give him entire control of the constructive work, unhampered by petty dictation from Washington. That Secretary Taft has different views is evident, and possibly the President sympathizes with him. Mr. Roosevelt does like to have a finger in every pie of authority, and he has made a bid for personal bossship of this canal job, with the object of reaping personal glory for successfully inaugurating, and advancing the great work. If failure and demoralization now result, the administration can scarcely escape responsibility.—Saratoga Sun.

COTTON MARKETS.

New York, July 3.—The cotton market was sensational, active and excited with fluctuations broader than any ever experienced except during the January corner of five years ago and the exciting break following the collapse of the 1903-4 bull movement. The market closed 4 to 5 points off from the top but at a net advance of 84 to 101 points. Sales were estimated at fully a million bales. The opening was steady to firm at an advance of 2 to 12 points in response to firmer cables than expected. But the longs were very uneasy over the possibility of a higher condition of the figure than counted upon and during the morning the market was weak. Before the government condition report was issued, October had sold off to 9.48 and the general list showed a net loss of about 7 to 8 points. The report was published promptly at midday, showing a condition of 77 per cent. against 88 per cent. last year, and was followed by one of the most rapid advances in the history of the market. Inside of the first ten minutes October had jumped up to 10.50 or a little more than $5 a bale from the lowest point of the morning with this month equally exicted and strong. Buying orders came from every direction. Big bulls, however, were very liberal sellers and local demands being partly filled there was reaction of 35 points, followed by a second and slower advance and fresh buyers orders from every source through various wire and commission houses. The market closed steady in tone and about $5@$6.50 a bale over the closing figures of last Saturday. The local bull leader issued a circular after the close, claiming that with as favorable weather from now on as last season the crop could not be much over 10,000,000 and predicting 12 cent cotton in the near future.

After vainly trying everything else, I cured it, with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At R. R. Bellamy's drug store; Only 25c. **

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. SPIRITS TURPENTINE.

Mr. H. O. Sapp, a member of the law firm of Sapp & Hasten, Winston-Salem, has instituted a suit for libel against Mr. M. D. Bailey, Jr., editor of "Jabs," Winston-Salem's new publication, the first issue of which appeared Saturday, June 23rd. The policy of the "Jabs" is to "go for people.

—On Friday, while Mr. Neill Black was riding with his little daughter in a buggy near Manchester, in the northern part of Cumberland county, the horse took fright at a freight train on the track and ran away, throwing them both out. Mr. Black was badly hurt, having three ribs broken. The child escaped injury.

—The large distillery of Wiley P. Blacky, at Asheville, was seized Saturday morning by revenue officers under Collector Harkins, and more than 5,000 gallons of liquor confiscated. It is said that the seizure was due to "irregularities," and it is alleged that the "irregularities" consisted in the finding of blockade whiskey in Mr. Black's establishment by the revenue officers.

—An accidental shooting occurred at Roxboro Sunday afternoon about 4 o'clock. Two little negro boys named Williams were visiting at a neighbor's. While the older people were out, the boys and some other children found an old gun and began to play with it. The older Williams boy had it in his hand when it was suddenly discharged, the load taking effect in the side of his brother's head. He died instantly. The boy that was killed was 9 years old, the one who did the shooting being 11.

A dispatch from Maxton on Saturday says: Cantaloupes are ripening now and beginning to move. The prospects are for a good crop, as usual, for the soil here seems especially well adapted to this fruit. The Atlantic Coast Line Company at this place are building a shed on its freight yards, to be used for packing cantaloupes. Heretofore the Seaboard has been handling most of this crop here; now that the schedule on the Atlantic Coast Line is so much improved even better profits can be realized on them by growers.

—The State Dental Society adjourned one of the largest and most harmonious meetings in its history at Waynesville, Saturday, to meet next year at High Point. The following officers were elected: President, Dr J. S. Betts, Greensboro; first vice-president, Dr. Charles A. Bland, Charlotte; second vice-president, Dr. G. B. Patterson, Fayetteville; secretary, Dr. Conrad Watkins, Winston; treasurer. Dr. R. M. Morrow, Burlington; essayist Dr. Ware, Shelby. Dr. S. P. Hilliard, of Rocky Mount, and Dr. Eugene J. Tucker, of Roxboro, were elected by acclamation members of the examining board.

—A correspondent at Goldsboro writes: Mr. James W. Baker, who was badly injured some months ago by a tree falling on him while he was guarding convicts near Mt. Olive, and who has been in James Walker Memorial Hospital in Wilmington since he was injured, has been brought to his home in this city. He is in a helpless condition. He had one leg, one arm and some ribs broken. The bones in his leg and arm have grown back together, but they are both useless to him. He cannot move except as he is helped. His hosts of friends deeply sympathize with him in his pitable condition. Jim served throughout the Spanish-American war and two years in the Philippines.

—Charlotte Observer, July 3: It is announced from Statesville that Hon. W. H. Brower, of Caldwell, has puit the Democracy and united himself with the Republican party. Mr. Brower has been to the Legislature, been solicitor of his district and Representative in Congress, and is a man of ability and might. Last year he was a candidate for the Democratic nomination for Congress in the eighth district, but was defeated for it by his countyman, Mr. W. C. Newland. It is to be regretted that he has abandoned the political affiliations of a life-time and joined in with the Republicans. Things have not been going on in the Democratic party for some years as he and other of its members in the western part of the State desired they should, but he should have waited awhile longer to see if there would not be a change in some of its policies. In making this transfer, however, he is only exercising a natural right.

—A dispatch from Winston-Salem on Sunday says: Dr. H. L. Sullivan, a physician who resides at Fairview, a mile northeast of the city, was arrested here last night on the charge of giving poison to small children of John Johnson, colored. Dr. Sullivan was carried before a magistrate and gave bond in the sum of $500 for his appearance at trial to-morrow. Dr. Sullivan, who is the examiner for an insurance company, was called to the home of Johnson to treat his two children. Some powders were left with the parents and the latter claim that they gave them according to directions. The first dose resulted in both children being thrown into convulsions. They were taken to a white physician, who said that the children were poisoned by strychnine. The youngest child died shortly after its return home. Dr. Sullivan admits that the strychnine was given by mistake. He recently moved here from near Germanton, where he practiced medicine for several years. At the recent meeting of the State Medical Society in Greensboro he was granted temporary license to practice his profession.

WORKS WONDERS.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Wilmington testimony proves it.

J. S. King, clerk on Market street, residing at 815 Orange street, says: I used Doan's Ointment and found it to be a great remedy for itching hemorrhoids. It acted like a charm in my case. I tried all kinds of remedies, but until I used Doan's Ointment I could get nothing to give me positive relief. It is a splendid preparation and you are welcome to use my name as one who says so. I obtained it at R. R. Bellamy's drug store."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—DOAN'S—and take no other. **

TO CURE ANY DISEASE.

The Cause Must be Removed, Same Way With Dandruff.

Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destoying the dandruff germs. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good," will not do the work of genuine Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest on my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at R. R. Bellamy's drug store; price, 50c. **

The Diamond Cure.

The latest news from Paris, is, that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee, of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." Unequalled quick cure, for Throat and Lung Trouble. At R. R. Bellamy's drug store; price 50c. and $1.00, guaranteed. Trial bottle free. **

COTTON WENT WILD IN NEW YORK YESTERDAY

In One Minute Price Went Up $5 a Bale—Government Reports Poor Condition of Crop.

By Wire to the Morning Star.

Washington, July 3.—The monthly report of the chief of the Bureau of Statistics of the Department of Agriculture will show the average condition of cotton on June 25 to have been 77, as compared with 77.2 on May 25, 1905; 88 on June 25, 1904, 77.1 at the corresponding date in 1903, and a ten year average of 84.6. Following is the condition by States:

Texas, 72; Georgia, 82; Alabama, 83; Mississippi, 72; South Carolina, 78; Arkansas, 75; Louisiana, 73; North Carolina, 82; Indian Territory, 79; Tennessee, 86; Oklahoma, 83; Florida, 87; Missouri, 86; Virginia, 88.

Cotton Jumps Up $5 a Bale.

New York, July 3.—The cotton market became badly excited after the publication of the government crop report to-day showing the condition of cotton to be 77 per cent., or lower than even the small crop year of 1903. The report was a great deal worse than had been expected and caused a stampede of general buying, the price jumping up one cent per pound within ten minutes after the publication of the report. This was the equivalent of $5 a bale. The weekly crop reports had been generally favorable, and the trade expected today's monthly report to show an improvement, or 80 per cent. at least.

Excited scenes were witnessed in the trading pit when the unfavorable report was read. For the first hour thereafter brokers on the short side of the market kept it violently excited, and prices advanced at time 10 points between trades, or fluctuated wildly when the top point had been reached. The trading was on an enormous scale and the market was in a turmoil for over two hours. Not until the shorts had covered their contracts and the majority of the trading interest had protected themselves on the readjustment of the crop situation did the market subside. December and January advanced 20 points at a time, more than 100 points in all, December selling at 10.60 and January 10.65. Thousands of bales were thrown over by bulls who took profits at the prevailing high prices and this selling quieted the market together with the belief that the advance had discounted the existing conditions. Later in the afternoon prices again advanced nearly to the top for the day.

Dirty Work In New York.

New Orleans, July 3.—Cotton here to-day took another bound upwards on the reading of the government report. A dense crowd packed the ring in anticipation of the report and there was a throng in the galleries. Cotton in the active positions almost instantly rose 100 points or a cent a pound. Subsequently there was some reaction on profit-taking. Two minutes before 11 o'clock, a telegraph company transmitted the figures "81.2" to the local cotton exchange, the correct figure being "77" representing the estimate of the cotton crop conditions up to June 25.

Secretary Hester wrote a letter to the local manager of the telegraph company intimating that some one in New York had made a criminal effort to manipulate the local market. The manager immediately telegraphed the letter to the New York headquarters of his company. The telegraph company confirmed its erroneous figures, about a minute after they were first received and the manager here says there is no doubt but that the figures this New Orleans cotton exchange office received were those sent from New York.

HORRIBLE DEED IN GEORGIA.

Negro Shot and Killed and Wounded Seven People.

By Wire to The Morning Star

Americus, Ga., July 3.—The wholesale shooting and killing of seven negro women here at the hands of Warren Hicks, a black desperado yesterday, still creates the greatest excitement in the neighborhood of the tragedy. The county is appalled at the horrible deed. The county commissioners met to-day and requested Governor Terrell to offer a reward for the murderer's capture, the commissioners making such an offer on behalf of the county. Hicks was chased ten hours by officers but is still at large.

The wholesale shooting occurred near Leslie, ten miles east of Americus, Sunday morning, resulting in the killing of two negro women and one man, and the shooting of four other negroes. Hicks did all the shooting, killing his wife, his mother-in-law and his father-in-law. Hicks and his wife had been separated for some time. This morning he went armed to the home of her parents, but learned that she was eight miles away on another plantation. Without explanation Hicks raised his shotgun and killed his mother-in-law in her tracks. He then compelled the dead woman's husband, at the point of the gun, to secure a team and carry him to where his wife was staying. Upon arrival there, an hour later Hicks shot his wife dead and then shot the old man, her father, wounding him mortally. Hicks then shot promiscuously until four other negroes had fallen, making a total of seven victims. Coffins for three were sent from Americus Sunday afternoon and little hope is entertained for the recovery of the remaining four victims.

THE EDITORS AT ASHEVILLE.

Newspaper Men from Virginia and North Carolina Gathering.

By Wire to The Morning Star.

Asheville, N. C., July 3.—Although the advance guard of the Virginia-North Carolina Press Convention was not scheduled to arrive till noon tomorrow, about forty delegates are already registered at Kenilworth Inn where the session of the convention will be held. It is expected that more than 300 editors and publishers will participate in this, the first joint convention of Southern press associations. Late this afternoon the entertainment committee, composed of local business men, received an invitation from the city of Waynesville, N. C., asking that the delegates visit that city on Friday. The invitation was promptly accepted and the newspapermen will make the trip in a special train provided by the Southern Railway.

The Corporation Commission heard argument yesterday from James H. Pou as counsel for the Atlantic Coast Line and Major John D. Shaw for the Seaboard Air Line on the question of assessment of the lines of the respective companies. It will be several days before any announcement as to results of the assessment changes is given out.

REBEL SHIPS RUNNING AMUCK

Vice Admiral Kruger is Powerless to Capture Mutinous Crews and Vessel

TERRORIZING THE BLACK SEA

Two Ships Likely to Be Declared Pirates—A Roumanian Warship Fired On One—British Steamer Outraged.

By Wire to the Morning Star.

Odessa, July 3.—1:35 P. M.—The surrender o fthe Georgi Pobiedonosetz was formally carried out this morning. The warship's officers returned from Nikolaieff, went on board and picked out the ringleaders of the mutiny and several of their followers, all of whom were sent ashore.

A torpedo boat destroyer and a gunboat arrived here during the night, bringing Rear Admiral Chouknin, the commander of the Black sea fleet. The torpedo boat destroyer upon her arrival here fired a blank shot across the bow of the British steamer Granley which was lying off Fontana for the purpose of taking off a British subject if necessary. The destroyer signalled the Cranley to accompany her inside the harbor. The Cranley complied, the destroyer in the meanwhile keeping her guns trained on the steamer. Later Russian officials took possession of the Granley and searched her for revolutionary refugees. The British consul-general protested to the governor, saying there was no reason to suppose that any refugees were on board the Granley.

The officials, in the presence of the vice-consul, carefully inspected the vessel and found no trace of revolutionists and the Russian officials apologized to the consul-general.

Sixty-seven muninteers of the Georgi Pobiedonosetz were brought ashore and imprisoned in the citadel.

Russian Ship Fired On.

Bucarest, Roumania, July 3.—The Russian torpedo boat No. 267, accompanying the battleship Kniaz Potemkine attempted to enter the port of Kustenji to-day. The Roumanian cruiser Elisabetha fired on the torpedo boat but failed to hit her. The torpedo boat then retired.

This incident followed the refusal of the crew of the Kniaz Potemkine to accept the government's offer, made through the captain of the port, who positively announced that the mutineers would not be allowed to receive provisions unless they came ashore unarmed and delivered the battleship and torpedo boat to the captain of the port. If these conditions were fulfilled the mutineers would be given liberty to go where they pleased. The rebellious sailors conferred together, then refused the government's demand and renewed their demand for provisions. This was again positively denied by the captain of the port, whereupon the the Russian torpedo boat attempted to enter the port but on being fired upon the Elizabetha and, evidently awed by the firm stand taken by the authorities, she decided to retire.

Mutiny Close to Home.

Cronstadt, July 3.—The crew of the Russian cruiser Minine refused to put to sea today with the other vessels of the active squadron, alleging that the age and bad condition of the Minineer prevented her participating in gun practice and manuevering. The ring leaders of this mutiny were arrested and the Minineer was towed close to a fort where she is now anchored.

Going to Sink Rebel Ship.

St. Petersburg, July 4.—2:25 A. M.—According to a dispatch received by an official agency the torpedo boat destroyer Snetilvy with a volunteer crew has sailed for Odessa with the intention of sinking the Kniaz Potemkine.

Ordered to Sink Ships.

Odessa, July 3.—8:36 P. M.—The fact that the Kniaz Potemkine remains on the high seas in charge of the mutineers is causing so much apprehension and uneasiness to the population of Odessa that the government has resolved to take the matter in hand and to show no further hesitation, even though the measures adopted involve the loss of the battleship and one torpedo boat destroyer.

The torpedo boats received orders this afternoon to attack and sink the Kniaz Potemkine on sight. The torpedo boat destroyer now here was reinforced this afternoon by two torpedo boats and others are expected.

Outwardly the centre of the city is beginning to resume its normal, quiet aspect, though comparatively few persons are seen in the streets. But in the harbor district all is ruin and devastation. Shipping and trade are entirely at a standstill and thousands of dock laborers are waiting around idle. The city continues under strict martial law. Soldiers everywhere cut off all the sea front portion of the city and use scant ceremony in stopping persons not provided with proper permits to enter these districts. The consulates, banks, public buildings and the principal offices are guarded by troops day and night. The social life of the city is entirely dead. In the harbor lie the hulks of a dozen large and small ships burnt in some instances to the water's edge. The large warehouses were burnt out entirely and there is scarcely a house or other building in the neighborhood that does not bear the marks of fire.

It is impossible to obtain accurate estimates of the amount of damage done, but it is variously estimated at from $5,000,000 to $10,000,000.

Six Thousand Killed.

Odessa, July 3.—Estimates of the number killed during the fires and rioting of last week run as high as 6,000. A far greater number were shot down but many of the bodies were incinerated.

MARVIN HART NOW CHAMPION PUGILIST

Knocked Out Jack Root In Twelfth Round—Ex-Champion Jeffries Was Referee.

By Wire to the Morning Star.

Reno, Nev., July 3.—Marvin Hart, of Louisville, today, knocked out "Jack" Root, of Chicago, in the twelfth round of a fight for the heavy weight championship. The betting odds were 3 to 1 in favor of Root. The punch which encompassed the downfall of the Chicagoan was a short, powerful jolt of the right arm to the body. The blow was delivered with terrific force and it caught Root while he was coming up. Root reeled, tottered and fell in a heap. Referee James J. Jeffries, towering over the prostrate form of the Chicagoan counted ten, making Hart heavy weight champion pugilist of the world. He might have counted twenty seconds, for Root was hopelessly defeated. Up to this point of the fight Root had an apparent lead over Hart.

The fight drew an attendance of about 4,000 people who paid all the way from $2 to $10 each for seeing the battle. There was a liberal sprinkling of women in attendance. The men stepped into the ringside about 20 pounds apart in weight, Root scaling 170 while Hart weighed 190. The feature of the fight aside from the battle itself was the appearance of James J. Jeffries, retired champion of the world, who received $1,000 for acting as referee.

Before entering the ring "Jim" Jeffries waited upon both men, stated that he had retired for good from the ring and that the winner of this fight is entitled to the name of heavy weight champion of the world. The men were introduced at 2:45 P. M. Considerable time was wasted in adjusting the gloves, the crowd meanwhile sweltering in the open air. Battling Nelson was introduced. He agreed to fight Britt to a finish in this ring. Jack Johnson and George Gardner both challenged the winner of today's contest.

Round 1.—Root starts jabbing Hart. Hart lands straight right to head. Root lands left to Hart's heart. Root lands on Hart's jaw. Root sends to jaw and left to body. Hart lands left and right to jaw. Root landed right on the jaw. This round was about even.

Round 2.—Root landed left hard to the jaw; repeats it and rushes into clinch. Hart and Root exchange lefts. Root is going to Hart's body and they clinch. Root missed hard swing and kept poking left to Hart's body. Root's round.

Round 3.—Root landed left hard to jaw and Hart returns to body hard with right. Hart landed right hard under heart. Root puts left to jaw. Hart landed hard to stomach. Root landed hard right to jaw. The exchanged lefts to jaw. Honors about even; both men fighting hard.

Round 4.—Root landed hard right swing to jaw. Root landed left and right jabs to Hart's jaw. Desperate in-fighting. Round about even.

Round 5.—Root put left to head and left to jaw. Hart hit body hard with right and they clinched. Hart landed right and left swings to head and Root upper cuts to head. Root landed right to body. Root missed vicious right swing to jaw. This was Root's round.

Round 6.—Root lands right to body and they clinched. Hart puts right to kidneys. Hart lands right swing to body and Root retaliates with left to body. Hart missed left and right swings. Root landed hard left to jaw. Clinched. Hart put hard right and left to body. Root goes to body with both right and left. This round equal.

Round 7.—They fought hard in this round. Root knocked Hart down with a terrific right just as the gong sounded. A claim of foul was made for Hart but Jeffries disclaimed foul and ordered men to continue. The gong saved Hart.

Round 8.—Hart came up fresh and boxed into clinch. Root doing very clever footwork. Both men fought for body. They roughed it. Fighting against all rules and Jeffries had to break them. Root landed terrific right swing just as the gong sounded. Root's round.

Round 9.—Hart pounded kidneys, Root put left jab hard to stomach. Clinch. Hart put hard right to stomach, jaw and right swing to kidneys. Jeffries had difficulty in separating the men. Hart made a spurt in this round and had a slight lead.

Round 10.—Hart landed right swing to Root's neck rocking him. They fought into a clinch. Boxed in and out of clinches. Root put left to jaw as the bell sounded. Honors about even.

Round 11.—Root pounded stomach with both right and left. Hart landed hard right swing to kidneys. Root put left to chin and right to body. Root drove left to stomach and received left to body.

Round 12. The men fought into a clinch. Jeffries separated them, but again they fell to a clinch. Separated again. Hart bored in and at close range ripped his right up under and a little to the left of Root's heart. Root went to the floor and was counted out.

NO RELIEF FOR CHARLOTTE.

Must Pay Higher Freights Than Cities Having Longer Haul.

By Wire to the Morning Star.

Washington, July 3.—The Inter-State Commerce Commission today handed down its decision in the two cases covering the complaint of the Charlotte, N. C., Shippers' Association against various Southern railroads involving the question of unjust freight rates to Charlotte from New York and other Northern and eastern ports and from Louisville, Chicago and other western points and also rates from the west as being greater for the shorter distance to Charlotte than for the longer distance from Charlotte to more distant localities. The commission dismissed both petitions on the ground that the facts presented did not constitute the basis for an order of relief which could be enforced.

The commission was influenced in its decisions by the fact that competition forces low rates to Virginia cities, and also compels the low rates from the west to certain points east of Charlotte. It is indicated in the opinion that if through rates to Charlotte, lower than the combination of charges to and from the Virginia cities, were established, the disadvantage now resulting to Charlotte dealers in their competition with dealers at Virginia cities would to that extent be removed; but the commission holds that in the absence of a showing that the present through charges are unreasonable it is without authority to require the discontinuance of the charges now exacted.

TERRIBLE LOSS OF LIFE.

Between 200 and 1,000 Persons Drowned in Mexican Flood.

By Wire to The Morning Star.

Mexico City, July 3.—Later advices from the flood stricken city of Guanajato place the loss of life between 200 and 1,0000 persons. The property loss is placed at more than a million dollars. The Mexican Central train which ran in a washout between Irapuato and Guanajato was wrecked and seven persons were killed and thirteen injured.

Saturday's Cloud Burst Caused Flood of Appalling Suddenness and Results

LOSS OF LIFE MAY REACH 1,000

Waters Rushed Down Gorge and Covered City, Reaching Above Second Story of Hotels—Property Loss Over $1,000,000.

By Wire to the Morning Star.

Guantajauato, Mexico, July 3.—Loss of life variously estimated at more than two hundred and less than one thousand persons and property damage to the extent of over a million dollars, have been caused by the flood which has swept over this town as the result of a cloud burst. The telegraph service has not been restored and the authorities are rapidly bringing order of out of chaos. Great suffering is prevalent but aid is being received from surrounding towns and a semblance of normal conditions, it is believed, will soon be reached.

Burial of the dead is progressing rapidly although many bodies are thought to be among the ruins of houses and are difficult to locate. The disaster that has come upon this city is unparalleled in its long history during which many floods have been recorded.

Guantajauto, owing to its situation in a great ravine or gorge, has been subjected to floods sweeping down from the mountains and much loss of life has been recorded, but the present storm which began Friday night and continued through Saturday was unprecedented in violence.

Part of the river which was built over with masonry burst through, augmenting the flood and the scene became one of terror and consternation. The people made haste to gather their valuables and flee and many did so at the risk of their lives, for the streets in the lower part of the city were filled with rushing waters and the roar of wind and rain added to the general panic. With one rush, the mighty flood burst its bound, the foundation of solidly built masonry and houses being undermined. Their inmates in many cases were crushed. In those houses near the river the water rose rapidly and the inhabitants went to the upper floors and even to the roofs where they were exposed to the full force of the storm. Many people thus seeking refuge in their own houses went down in the crash of their dwellings.

From the centre of the city the flood rushed to both sides of the town and the people, rushing out to flee to the mountains, were caught and swept away.

At the time when the storm seemed likely to abate, and before its greatest intensity was felt, there was a great crowds of merrymakers in the plaza. Gaming operators had scarcely time to set up their tables and place their money thereon when the flood rushed down from the hills, sweeping away booths, money and tables. Many people were then and there drowned.

A large number of people had sought refuge in the church of San Diego but soon were crushed to death under its falling walls. The priest who was addressing words of hope and consolation to the people was killed.

Four hotels and some large shops were demolished or badly damaged and some of the handsomest mansions in the city were wrecked with all their rich furniture and furnishings. The second floor of the Hotel Union is under five feet of water.

Officers are trying to preserve order and to control the band of thieves who are at work pillaging shops and mansions.

The federal telegraph lines were interrupted for some time, but the service is now resumed, though the water stands two feet in the building.

The bodies of the people drowned are being taken to houses in the higher streets and the spectacle is a sorrowful one, as the streets are filled with mourning survivors looking for their dead. It is probable that many bodies will be found under the ruins of houses.

The famous LaOlla Dam is intact, though at one time it was believed to have burst.

Many people are still camping in the mountains. The authorities and the telegraph officials have done everything possible to maintain order and keep communication open.

COUNTY AND CITY SCHOOLS.

Board of Education Names Committees and Elects Superintendent.

The County Board of Education met yesterday and reorganized for the ensuing fiscal year. Prof. Washington Catlett was unanimously re-elected county superintendent of public instruction and the various committees for both the city and rural districts were named. As several of the old members of the city committees declined re-election on account of a press of other duties, it was decided to reorganize all the committees which was done as follows:

District No. 1.—Dr. G. G. Thomas and Messrs. J. Allen Taylor and Samuel Bear.

District No. 2.—E. S. Martin, Esq., and Messrs. C. W. Worth and James Sprunt.

District No. 3.—D. J. Fergus, C. W. Bishop and William Hollis.

District No. 4.—Addison Hewlett, J. P. Herring and B. S. Montford.

District No. 5.—W. H. Stokley, Giles W. Westbrook and John H. Hanby.

District No. 6.—F. J. Dempsey, Richard Murray, David G. Westbrook.

District No. 7.—Oscar Pearsall, A. E. Blake and D. F. Klein.

District No. 8.—Thos. J. Burnett, Henry Taylor and John A. Biddle.

District No. 9.—Joseph C. Lewis, W. A. Ainsworth and J. M. Puckett.

District No. 10.—Samuel Blossom, C. H. Casteen and Jas. G. Johnston.

District No. 11.—C. H. Alexander, Isaac M. Jarott and S. J. Batson.

District No. 12.—J. H. Johnston, Geo. Trask and Chas. Seitter.

District No. 13.—B. B. Humphrey, E. L. Ennett and J. R. Cannady.

District No. 14.—John D. Woody, Jas. P. Walton and Jas. T. Cannady.

District No. 15.—E. C. Holt, Jas. A. Jordan and Oren Johnson.

The personnel of the committee for District No. 1, in the city, is entirely changed, Messrs. James P. Post, Ed. Borden and Richard J. Jones retiring, and the gentlemen named being elected in their places. The only change in the committee for District No. 2, was the election of Eugene S. Martin, Esq., in place of Mr. Samuel Northrop.

Resolutions of thanks of the old committees were adopted for their earnest and zealous efforts in behalf of the schools and for bringing them to such a high state of efficiency.

MUNICIPAL AFFAIRS

(Continued From First Page.)

dition by saying that it could rain wheelbarrows through the roof. The Mayor said he would look after the matter at once.

Chairman Price, of the Ordinance Committee, called attention to some laws that he thought should be enforced. Some of these were that no person, for healthful reasons, shall allow Jamestown weed to be grown on his premises, under penalty of a fine; there shall be no trespassing on the public plazas, neither shall horses be tied to shade trees, lamp, telegraph, telephone or other poles; that bar keepers shall display in front of their saloons a sign "Licensed to retail liquors," under penalty of $50. The Mayor instructed the Chief of Police, who was present, to see that the ordinances are enforced.

Regulate the Social Evil.

The sensation of the hour was sprung when Alderman Johnston introduced a drastic resolution, complaining in behalf of citizens in the community, of certain, alleged disreputable houses on MacRae, between Chesnut and Grace streets, and on Chesnut, between Tenth and Eleventh streets. The resolution went on to state that the houses, not specified, had become a nuisance and a constant menace to the law abiding citizens of those sections. The resolutions "instructed" the Mayor through the Chief of Police to notify the keepers of these houses that they must vacate by October 1st. In case of their failure to vacate, then the Mayor is "instructed" to use such means or measures as will be necessary to carry the resolution into full force and effect. It is made the duty of the Chief of Police to see that the houses vacated are not used for immoral purposes again.

Mayor Waddell said at the outset the Board as a legislative body had no right to instruct him as an executive officer to do anything; that if anyone had any evidence upon which he could proceed legally to abate the alleged nuisances complained of he was ready to proceed. It was hard to proceed on generalities and if Mr. Johnson would produce anything specific he would issue warrants at once. Mr. Johnson asked to have the word "instruct" in the resolution made "request," saying that if the places of vice in that section complained of could be broken up an isolated place could be given them where the nuisance in a respectable neighborhood could be abated. Alderman Brown suggested that it was scattering the places of so-called disorder all over town and moving them from one good community to another.

Mr. Johnson became rather heated in his argument as to the want of evidence, saying that if the Chief of Police and the policemen on their beats were doing their duty, they knew where these places are and should be made to come forward with the testimony. The records in the Superior Court showed where some of these persons had actually submitted to what was now wanted to be proved.

The Mayor then went aside to say that he had lately made a study of the social evil in other cities and was working quietly and had intended shortly to act conservatively toward segregating such places complained of in a remote part of the city where they could have special police protection to be paid for by themselves and he regretted that publicity had been given to any movement in the manner it had just been given, which tended, he thought, to hinder or delay the movement, which was necessarily slow, but he thought, the best way to attain the desired end. The Mayor said he had wanted to take the matter up in private conference, which was essential to the plan in view, but if other tactics were desired, he was ready to proceed on anything that could be done legally.

In that event Mr. Johnson withdrew the resolution with the understanding that the Mayor would call the Board in private conference at an early date. The newspapers were requested to make no mention of the resolution and discussion, but inasmuch as it is a matter of a public record of a public meeting, the facts are as given above.

The Mayor stated that the Board of Health had agreed to continue the use of Jacob's Run as a sewer provided the property owners interested will place the same in sanitary condition.

M. T. Davis, a wounded Confederate soldier, was given license as a huckster without cost to him.

Alderman W. H. Yopp gave notice that at the next regular meeting he would introduce an ordinance providing the office of a purchasing agent for the city. In regard to liquor license applications he said he was tired of criticism for passing over them too hurriedly as was recently the case. He made a motion that in the future all applications be required to be in a week before their passage and that before coming before the Board, all their endorsements, etc., be first examined by a committee of three to be appointed by the Mayor from the Board. Mr. O'Brien thought the Aldermen as a whole fully capable of passing on the licenses and spoke heatedly of the impositions put upon liquor dealers. There are as good people in the liquor business as there are in any other occupations in Wilmington, he declared.

The City Engineer was allowed 2 1-2 per cent. for superintending, giving grades, etc., for streets paved with brick on contract, it being the understanding that the same figure was paid by previous administrations.

Departmental Reports.

City Clerk and Treasurer John J. Fowler reported a balance on hand June 1st, $4,565.61; receipts, merchants' license, $2,170.04; bar rooms, $3,040; market rent, $45.08; Mayor's court, $213,90; weighing beef cattle, $13; miscellaneous and extraordinary, $311.70; real and personal tax prior to 1904, $583.98; dog badges, $868; dray badges, $169.60; loans, $10,000; costs on tax prior to 1904, $136.76. Total, $17,552.06. Grand total including balance, $22,117.67. The disbursements were $9,853.60. Balance, $12,264.07.

The report of Chief of Police Williams showed 124 arrests during the month, 46 of the defendants being white and 78 colored. Nine cases were sent to the Superior Court under aggregate bond of $3,425. Twenty-six were sent to the county roads and workhouse for an aggregate of 770 days.

Dr. C. T. Harper, superintendent of health, reported 52 deaths during June, 27 of the decedents being white and 25 colored; 49 births, 22 white and 27 colored. The health officers made 4,569 inspections, did 59 fumigations and issued 662 lime and acid orders. Trash carts collected 1,105 loads of trash and 1,785 premises were attended by scavengers. Thirty cases of typhoid fever and 8 cases of smallpox were reported. The trash carts were reported as not removing the trash as well as they should on account of the shortage of one which was taken off for the purpose of removing slops.

Cattle Weigher S. L. Yopp reported having paid $13 into the treasury as revenue from his office during the month.

Fire Chief Chas. Schnibben reported nine alarms during June and a property loss not exceeding $250.
